

EMCAD Consulting Engineers
Mechanical | Electrical | Plumbing
We bring buildings to life
Since 1989

LONDON, ON– February 1-2017 – Strik Baldinelli Moniz (SBM) Civil & Structural Engineers and EMCAD Consulting Mechanical/Electrical Engineers are pleased to announce that they have joined forces. EMCAD will become a division of Strik Baldinelli Moniz and will continue to operate as EMCAD Consulting Engineers.

“We are excited about our partnership with EMCAD. This enables us to capitalize on their expertise and expand the services we provide to include Civil, Structural, Mechanical and Electrical engineering,” said Michael Baldinelli, P.Eng. President of SBM. “Our clients have been asking that we include Mechanical and Electrical Engineering services for quite some time, we’ve been working closely with EMCAD over the past year, their service and expertise clearly stood out as a leader in the M/E field.” added Baldinelli.

With the acquisition, the firm has the ability to provide seamless coordination between multiple disciplines on any size building project across the entire Province.

“This was a perfect fit for us.” noted David Myles P.Eng, President of EMCAD. “EMCAD has been collaborating with SBM over the past year, the experience has been excellent. We’ve assembled a solid multi-disciplinary team and the response has been very positive.” Myles adds, “I will be staying on as President of EMCAD for the foreseeable future and look forward to what lies ahead.”

We would like to welcome our new Associates, Pete Vandecamp and Matt Pungitore who have joined the Associate Level within the firm. Both Pete and Matt will continue on as Managers in their respective roles.

About Strik Baldinelli Moniz

Founded in 2004, Strik Baldinelli Moniz is an award winning multi-disciplinary engineering firm providing services in Civil and Structural Engineering.
